

ACEC/MW can serve as a resource and advocate for seeking federal and other funding sources to support the District’s infrastructure investment needs.

Our members are subject matter experts regarding federal funding programs and how those programs can be tapped to support the District’s Capital Plan and leverage local resources to apply for competitive funding programs. We advocate for federal infrastructure funding and stay engaged in policy and funding legislation that relates to infrastructure.

With the significant increase in funding from the Infrastructure Investment and Jobs Act (IIJA), we are here to support the mission of the agencies who are faced with unprecedented pressure to put these dollars to work to create jobs with socially equitable and sustainable infrastructure projects.

A significant portion of IIJA funding is earmarked for social equity and sustainability, which aligns with the District's goals. We are available to share lessons learned from other jurisdictions, and share our knowledge of the industry and how government and industry can work together to achieve these ambitious goals. We are building the workforce to carry out your programs, and we are here to support your decisions along the way.

Infrastructure Investment and Jobs Act 550 Billion New Spending over 5 years

Location	Transportation*	EV Charge Network	Broadband	Cyber/Climate Change	Safe Drinking Water	Airport Development
DC	43%	17M	100M	10M	355M	0M
MD	36%	63M	100M	24M	884M	158M
VA	33%	106M	100M	15M	738M	386M

*Percentage IIJA Spending increase over prior year

Competitive Grants			
Megaprojects	Bridges	Broadband, EV Network	Sustainability, Airports, Ports, Rural Transportation, Weatherization
\$16B	\$12B	\$7.5B	\$3.5B

Water	
\$15B Lead Service Line Replacement	\$55B Total Fed Investment

The Issue:
Maximizing available infrastructure funding for the District

The Impact:
Missed opportunities to advance capital programs and to enhance safety, social equity, sustainability, and the built environment for the citizens of the District

Conclusion:
Work with council and agency leads to identify additional sources of funding
