## Transportation Engineering

### Erin Donovan, PE

Vice President / Mid-Atlantic Transportation Deputy Area Manager  
GFT

### ENGINEER SPOTLIGHT

**Years in the Industry:** 26 years

***What are you proud of as an Engineer?***

"I'm proud to have been a part of projects that improve the quality of life for the traveling public by implementing sustainable transportation improvements. It's rewarding to see projects that I have been involved in get built and to see tangible improvements."

***Why does Transportation Engineering matter in our Metropolitan Washington region?***

"Transportation is critical to the success of our region. Without a solid transportation network to move people and goods, our economy would not be sustainable or thrive since people and companies would not want to live here or locate their businesses in the DMV."
